Pallet Process Agreement – Storage

Between (INSERT ENTITY) trading as Scott's Refrigerated Logistics (ScottsRL)

And

(Insert Customer Name and ABN)

ScottsRL accepts transfers of CHEP and Loscam standard wooden pallets, provided pallets are subsequently transferable by ScottsRL to a receiver with an active pallet account. Wooden pallets that are not transferrable to another carrier or receiver will not be accepted onto a ScottsRL pallet account. Any such transfers made to ScottsRL will be rejected.

All pallet transfers on CHEP equipment will automatically have an electronic delay added to them by CHEP; this is a standard 30 days (unless agreed otherwise). All Loscam transfers must have an effective date of 30 days from the date of receipt into the warehouse; any docket transfer not adhering to this will be corrected.

No other pooled hire equipment or containers used for the carriage of goods will be accepted on to any ScottsRL pallet or other equipment account. Any such transfers will be rejected outright and ScottsRL will not take responsibility for any hire or other cost incurred by the customer. When placing an Inbound Stock Notification or booking for storage involving such equipment, the equipment type must be shown as "Other".

When dispatching from a ScottsRL warehouse the Outbound Stock Request or booking for the release of freight must provide details of the collecting carrier including their pallet account number. Should the carriers reject the relevant transfer by ScottsRL, pallets in question will be transferred back to the customer. If the customer does not have a valid pallet account a Pallet Loss Fee will apply. Pallets will not be transferred to subcontracted carriers of the booked carrier or directly to the end receiver.

Where a customer's freight is palletised for storage from unload of import containers and pallets cannot subsequently be transferred by ScottsRL to a nominated collecting carrier, pallets in question will be transferred to the customer. If the customer does not have a valid pallet account a Pallet Loss Fee will apply.

Transfers to ScottsRL not processed to CHEP or Loscam within 90 days of despatch date will only be accepted or corrected onto a ScottsRL pallet account with a new movement date representing the date of invoice from CHEP or Loscam.

Transfers onto ScottsRL not processed within 180 days of despatch date will only be investigated where the signed pallet docket and relevant paperwork can be provided (ie Inbound or Outbound stock notification, Order for Transport, job number or consignment number). Items must be listed in the standard ScottsRL Pallet Claim Form that will be provided on request.

Transfers rejected by ScottsRL must be queried within 90 days of rejection or correction. Failure to do so will result in any reinstatements being effective as at the date of the query. Any correction or rejection not queried within 180 days will not be investigated.

ScottsRL will not provide empty pallets in exchange on acceptance or delivery of freight into a warehouse. ScottsRL will not accept empty pallets in exchange on despatch, collection or delivery of freight from a warehouse. Pallets transferred to ScottsRL that are not subsequently transferrable by ScottsRL to a nominated collecting carrier due to that party not having an active pallet account with CHEP or Loscam will be transferred back to the customer. If the customer does not have a valid pallet account a Pallet Loss Fee will apply.

The customer agrees that ScottsRL has the authority to amend a transfer quantity and equipment type if such is deemed incorrectly recorded on arrival at a ScottsRL site or a receiving delivery point.

This agreement relates to all pallets collected on the customer's behalf. All other sending sites (storage warehouses, etc.) whereby freight is collected on behalf of the customer are also required to comply with this agreement and it is the responsibility of the customer to advise such parties of this agreement and ensure their compliance with it.
